

SUPPLEMENT V – Regulated Substances Disclosure and Compliance, Rev. 3/23/2018

For purposes of this Supplement V - 1) Supplier shall be synonymous with Supplier or Seller, which ever term is set out in the contractual instrument incorporating this Supplement V by reference, 2) Goods shall be synonymous with Product or Goods, which ever term is set out in the contractual instrument incorporating this Supplement V by reference, and 3) Order shall be synonymous with Order or Purchase Order, which ever term is set out in the contractual instrument incorporating this Supplement V by reference.

Supplier represents and warrants that the Goods and any substances contained therein are not prohibited or restricted by, and are supplied in compliance with, any laws or regulations of any country or jurisdiction in the world, including but not limited to the United States, the European Union ("EU"), and nations adopting legislation similar to that of the EU, and that nothing prevents the sale or transport of the Goods or substances in Goods in any country or jurisdiction in the world and that all such Goods and substances are appropriately labeled, if labeling is required, and have been pre-registered and/or registered and/or authorized under the EU Registration, Evaluation, Authorization and Restriction of Chemicals regulation ("REACH") if preregistration, registration and/or authorization is required. In addition to complying with REACH, the EU's regulation of chemical substances, Supplier shall timely provide Buyer with all relevant information on the Goods including chemical content thereof so that the intent of REACH is met for communicating with downstream users as defined in Article 3(13) of REACH (any person established in the EU who uses a chemical substance in the course of his industrial or professional activities; the definition does not include the manufacturer, importer, distributor, or consumer) and shall provide written certification of the same to Buyer within 30 days of any written request by Buyer, and in any case, Supplier shall provide all information necessary to the level of detail necessary for the Buyer and any downstream user to timely and accurately fulfill their obligations under REACH. Supplier shall promptly notify Buyer in writing of any Substances of Very High Concern (as such category is specified in REACH) that are present in any Goods at levels above 0.1% by weight of such Goods, where the Goods were supplied either: a) six months before the inclusion of the substances concerned on the REACH "Candidate List" or b) at any time after such inclusion on the Candidate List. In addition, Supplier shall properly and timely inform Buyer of the inclusion in Annex XIV of REACH of a substance contained in the Goods. In such event, Supplier shall discuss with Buyer actions to ensure continued compliance with REACH. Subject to compliance with antitrust rules, Supplier shall use its best efforts to obtain and maintain authorization under REACH for use of such substances, on the condition that it can be demonstrated that the risks of such uses are adequately controlled and/or Supplier can otherwise be granted an authorization as specified in Article 60 of REACH. If these conditions are not met, Supplier shall immediately notify Buyer in writing and shall seek to identify or develop alternatives in due time for validation and use by Buyer before the relevant "Sunset date" under REACH. The listing of a substance present in the Goods in the REACH Candidate List or in Annex XIV of REACH shall not in itself constitute a valid cause for Supplier to fail to perform or delay performance under an Order pursuant to excusable delay provisions of the contractual instrument incorporating this Supplement V by reference. Supplier shall bear all costs, charges and expenses related to pre-registration, registration, evaluation and authorization under the REACH regulation of the chemical substances that are the subject of the Order.

Buyer further reserves the right to require substance disclosures of Seller to Buyer, or regulatory authorities as may be applicable, with respect to National Aerospace Standard (NAS) 411 or the

Aerospace and Defense Declarable Substance List (AD-DSL) for any goods delivered. Seller shall provide such disclosures within thirty (30) days of Buyer written request.

All disclosures and certifications to Buyer required in accordance with this Supplement V shall be made to SCompliance@txtav.com in the form and substance required by Buyer. A non-response by Seller to the certifications required pursuant to this Supplement V shall amount to a certification by Seller that no substance prohibited by regulation applicable to Supplier, Buyer, or Buyer's customer is present in the Goods. All disclosures or non-disclosures and the accuracy of information pertaining to same as required by any applicable environmental regulation are the sole responsibility of the Seller. Any Buyer liability resulting from Seller failing to correctly report information to Buyer as required in this Supplement V shall be that of Seller.
